

TECHNALOCK®

Newsletter

Volume 1

Issue 1

January 2006

Happy New Year from all of us at TECHNALOCK. We hope you enjoy the first edition of our newsletter, prepared by **CUSTOMER SERVICE**. Our goal is to send a newsletter to you *only once per quarter* to let you know about important things going on at TECHNALOCK. This includes information on new products, promotions/coupons and special features. As we intend only to share this with our customers, we apologize if it has reached anyone in error and we are happy to remedy the situation. Kindly let us know by emailing customerservice@technalock.com. Also, we also **LOVE** to hear from **OUR CUSTOMERS**, so feel free to contact us with any questions or comments you have.

2006 Catalog

Be on the lookout for the 2006 **TECHNALOCK Computer Security catalog**, scheduled to be mailed out this week (Jan 12-13). If you do not receive a catalog by January 27, or need additional copies, please let us know. Simply email us at customerservice@technalock.com or call our toll-free number, 800-448-5625. The 2006 catalog contains information on our standard products as well as introduces a few new ones. It is also compatible with our **WEBSITE**, which was recently updated Fall 2005. If you haven't visited www.technalock.com recently, you should definitely check it out!

New Products

Notebook Security Kit Plus Accessory Lock
The Notebook Security Kit *Plus Accessory Lock* is new this year. It is perfect for securing more than one piece of equipment on only one cable. Save money and secure more by using the Notebook Security Kit Plus Accessory Lock in conjunction with your existing Notebook Security Kit Plus or any of our other complete kits. The Notebook Security

Kit Plus Accessory Lock attaches over the security cable and locks into the built-in security slot on laptops, flat panels, projectors and much more.

Lock Together AV and Storage Rack

This winter TECHNALOCK introduced our Lock Together AV and Storage Racks. They are perfect for storage of audio visual equipment, boxes, files and other miscellaneous items. Each rack includes six shelves, which are height adjustable in 1" increments, and each shelf can hold up to 600 lbs! This rack assembles quickly without use of tools or bolts and comes with shelf inlays for a flat surface.

(See our 2006 catalog for more information.)

Special Feature

Meet Romeo & Julia!

The front office of TECHNALOCK is home to our beautiful finches, Romeo and Julia. As some of you know, recently they were especially busy sitting on a nest of *six* tiny eggs. We were in doubt about whether the eggs would actually hatch as ones in the past had not. This time, however, on **Christmas night** all six babies hatched. Anyone interested in the "development" of these newest additions, let us know. We would be happy to send picture updates. Email us at customerservice@technalock.com & we'll keep you posted!
